

# Salmon Creek Avenue Pathway

Vicinity of Pleasant Valley Park and WSU Vancouver

## Clark County

### Project Information

Federal Funding Program: TAP Program

RTC Awarded Funding: \$501,800

#### Project Goals:

- Provide access to Pleasant Valley Park
- Remove pedestrians and bicyclists from the vehicle lane
- Reduce pedestrian / motorist conflicts
- Reduce bicyclist / motorist conflicts
- Reduce pedestrian / bicyclist conflicts

#### Project Outcomes:

- Enhanced access to Pleasant Valley Park with the construction of a marked crossing with a HAWK beacon
- Separated pedestrian and bicyclist multi-use pathway constructed
- Conflicts between pedestrians / bicyclists and vehicles reduced

Total Project Cost: \$910,500

Project Type: Bicycle & Pedestrian

Project Length: 0.4 miles

Function Classification: Minor Arterial

Daily Traffic Volume: 4,160 ADT

#### Project Description

Construct new multi-use pathway on north/west side of Salmon Creek Avenue between Washington State University and Pleasant Valley Park. Add pedestrian crosswalk with HAWK beacon at entrance to Pleasant Valley Park.

#### Project Funding

Phase	Year	Federal Funds	Other	Total
PE	2013	\$66,000	\$134,500	\$201,000
ROW	2015	\$0	\$5,000	\$5,000
CN	2015	\$501,800	\$202,700	\$704,500
Total		\$567,800	\$342,200	\$910,500

## Project Outcome Details

- Enhanced defined access to the Pleasant Valley Park entrance has been constructed, including a HAWK beacon.
- The HAWK beacon and crosswalk provides a defined crossing between the park and WSU Vancouver.
- A dedicated multi-use pathway has been completed for pedestrians and bicyclists, extending the existing sidewalk network for approximately 0.4 miles.
- Pedestrians and bicyclists have been separated from the travel lane, decreasing conflicts with motorists.
- The overall travel experience for all users has been improved and safety has been increased.

## Map

Before – no pathway

After – pathway

Before – no HAWK beacon

After – HAWK beacon
