

# Salmon Creek Avenue Pathway

## Clark County

Project Completed: December 2015

### Project Information

RTC funding: \$501,800 TAP Program

Total Project Cost: \$856,000

Project Type: Bicycle & Pedestrian

Project Length: 0.34 miles

Function Class: Minor Arterial

Daily Traffic Volume: 3,383 ADT

### Project Description

Construct new multi-use pathway on north/west side of Salmon Creek Avenue between Washington State University and Pleasant Valley Park. Add pedestrian crosswalk with HAWK beacon to connect to the entrance of Pleasant Valley Park.

### Project Benefits

- Dedicated pathway removes pedestrians from roadway increasing safety.
- HAWK signal and crossing increases safety when crossing Salmon Creek Avenue.
- Impervious sidewalk reduces footprint and creates environmental friendly environment.

### Project Funding

Phase	Year	Federal Funds	Other Funds	Total
Design	2013	\$66,000	\$134,500	\$200,500
Right of Way	2015	0	\$5,000	\$5,000
Construction	2015	\$501,800	\$148,700	\$650,500
Total		\$567,800	\$288,200	\$856,000
